

**Origin Story of Shaktimaan:** Shaktimaan is a superhero, originally from India. He is the result of Gangadhar's 12-year commitment to rigorous yoga practise, which he undertook at a Himalayan school with the supervision of seven Suryanshi gurus. Although he was the son of Major Ranjit Singh and Dr. Kaushalya Devi, his upbringing was influenced first by Arundhati Devi and Pandit Vidhyadhar Shastri, and then by the Suryanshi sages of the Himalayas. Despite not being a real Suryanshi, he possesses Suryanshi traits. To this day, Shaktimaan is still revered by both young children and some elderly individuals. Sometime in the 2010s, he was last seen.

## How Shaktimaan emerged?

The warrior and sage Sri Satya, who existed 6000 years ago, is reincarnated as Shaktimaan. He was born in a cave close to the Karadunga bush on top of Himtung Peak. He was taken there because, based on several prophecies, his birth was anticipated to occur at a specific moment at Himtung Peak. Only then will he be able to fulfill Sri Satya's prophecy about his own rebirth—becoming the warrior of truth. Kilvish, however, learns who and when will give birth to Ranjit's son and sends thugs to assassinate the infant.

Following 12 years of rigorous training, Gangadhar sacrifices his life in the sacred fire in front of all the elder Suryanshi gurus in order to use his yogic abilities to acquire superpowers from the universe's five elements. Once that occurs, he gains the abilities of the earth element, which grants him his boots, the water element, which offers him his entire dress, the fire element, which provides him his chest chakra, which is Shaktimaan's sign, the air element, which grants him his belt, and the space element, which grants him his wrist guards.

When all of the parts of his divine outfit come together, Shaktimaan, a superhero with tremendous powers, emerges. He swears to defend humanity and the entire globe from evil forces.

## **Origin Story of Shaktimaan**

Every living thing had been eaten by greed and malice during the Kaliyuga, hence it was imperative to wipe off these corrupt beings. As a result, Suryawanshi Sadhus selects a man who has been instructed on how to stimulate each of the human body's seven chakras. As a result of this phenomenon, he gained a significant amount of superpowers and total mastery of the five natural elements: Earth, Air, Wind, Life, and Water. Shaktimaan was created as a result of this.

The value system of his superhero figure is to end all injustice and corruption in the universe. To hide his superhuman identity, he adopts the persona of Gangadhar. The complete antithesis of who he really is, Gangadhar is a news reporter with the idiosyncrasies of a Clown Hero. He uses just the Hindi language, which tells volumes about how sincere he is. In addition, he works with Geeta Vishwas, who gave him the superhero

title "Shaktimaan."

Every strong superhero, for example, needs other characters that are morally repugnant to the protagonist.
